A LIFE & SAT PREP - FOR-KIDS 10+

The Book of Life is I Am Sun's SAT-for-Kids literacy program. What exactly is it? A preparation for the **English Language Arts** section of college entrance exams (SAT/GED) & common core skills through a journey format - exploring the diverse experiences of students of color and a world that embraces our history, our perspectives, our imagination and our greatest virtues. View our [YouTube!](#) [commercial](#).

THE WHY: Education has always seemed so disjointed from itself and the reality of being human in a progressive and yet troubled world. How could we learn not just academics, but how to make life better for ourselves, our planet, and others?

For, as it is said, education is not about the filling of a vessel - but the sparking of a flame.

For too long, we have associated European history as World History, and Western science as the ultimate truth. This course examines the happenings of the world from the lens of the first people of each land, including Europe.
